2020 Good Universities Guide

ANU College is the
**official pathway
provider**

to undergraduate and
postgraduate study at
The Australian National
University (ANU).

When you study at ANU College, you have the option to study online and complete your program from home or study online and come to campus later. The choice is yours.

I'm glad I'm doing Foundation Studies before going to ANU because it helps you get used to Australian ways. The teachers are very friendly and easy going and they're close to the students; almost like friends. I like the peace and space in Canberra, compared to Hong Kong. I think it's a bit slower, and it suits me. It's my dream place because I can work at my own speed and feel comfortable about that. My parents are glad that I've gotten used to the lifestyle and found my own happy place here."
